

CHAPTER NO.	CHAPTER NAME
1	Fractions in Disguise
2	The Baudhayana-Pythagoras Theorem
3	Proportional Reasoning-2
4	Exploring some geometric themes
5	Tales by Dots and Lines
6	Algebra Play
7	Area

TEACHER NAME: Sumit Bhardwaj	SCHOOL NAME: PM SHRI KV NO. 2 PORT BLAIR
GRADE:8	CHAPTER NAME: Fractions in Disguise
CONCEPT: Growth and Compounding	GENERAL COMPETENCY FOR MATHEMATICS: C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY: C-1.6 Explores and applies fractions (both as ratios and in decimal form) in daily life situations.	
LEARNING INDICATOR: Applies the concept of interest (without compounding) to solve problems in real life context	

<p>QUESTION 1</p>	<p>Sumit maintains a PPF(Public Provident Fund) account in a bank and following are the rules to be followed :</p> <ul style="list-style-type: none"> • Minimum deposit of Rs. 500 and maximum of Rs. 1,50,000 in a financial year. • Interest rate is 7.1% p.a • Interest on the balance amount shall be credited at the end of each financial year. <p>Sumit has deposited Rs. 1,50,000 as lump sum for the year 2024. The entry of which is shown below in his passbook.</p> <table border="1" data-bbox="542 531 2085 863"> <thead> <tr> <th>Transactio n</th> <th>Transactio n</th> <th>Description</th> <th>Credit Amount</th> <th>Debit Amount</th> <th>Balance</th> </tr> </thead> <tbody> <tr> <td>01-Apr-2024</td> <td>52227095.0</td> <td>PPF SUBSCRIPTIO N</td> <td>150000.0</td> <td>0.0</td> <td>852893.00</td> </tr> </tbody> </table> <p>How much interest will he receive at the end of the financial year?</p>	Transactio n	Transactio n	Description	Credit Amount	Debit Amount	Balance	01-Apr-2024	52227095.0	PPF SUBSCRIPTIO N	150000.0	0.0	852893.00
Transactio n	Transactio n	Description	Credit Amount	Debit Amount	Balance								
01-Apr-2024	52227095.0	PPF SUBSCRIPTIO N	150000.0	0.0	852893.00								
<p>OPTION A</p>	<p>Rs. 7,02,893</p>												
<p>OPTION B</p>	<p>Rs. 605.55403</p>												
<p>OPTION C</p>	<p>Rs. 6055540.3</p>												
<p>OPTION D</p>	<p>Rs. 60555.403</p>												
<p>CORRECT OPTION</p>	<p>OPTION D</p>												

<p>TEACHER NAME:</p>	<p>SCHOOL NAME:PM SHRI K V Pt Deen Dyal Upadhyay Nagar</p>
----------------------	--

Pradeep Kumar Tiwari	
GRADE:8	CHAPTER NAME: 1 Fractions in Disguise
CONCEPT: Growth and Compounding	GENERAL MATHEMATICAL COMPETENCY: C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY: C-1.6 Explores and applies fractions (both as ratios and in decimal form) in daily life situations.	
LEARNING INDICATOR: Applies the concept of compounding to solve problems in real life context	

QUESTION 2	Mohan deposited ₹10,000 in a savings account at ABC Bank for 2 years and earned ₹2,000 as simple interest during this period. He now invests the same amount in a fixed deposit for 2 years at the same rate of interest, but with annual compounding. What amount will Mohan receive at the end of 2 years from the fixed deposit?
OPTION A	Rs 12000
OPTION B	Rs 11000
OPTION C	Rs 12100
OPTION D	Rs 10201
CORRECT OPTION	OPTION C

ASSESSMENT WRITER: TEAM_SAS	
GRADE: 8	CHAPTER NAME: Fractions in Disguise

CONCEPT: Percentage change and Taxes	CBSE MATHEMATICAL COMPETENCY: C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY: C-1.5 Explores the idea of percentage and applies it to solve problems	
LEARNING INDICATOR: Applies the concept of profit/loss/discount to solve problems in real life context	

QUESTION 3	<p>Aakriti had been waiting for the Republic Day Sale on her favorite online shopping platform to purchase a stylish dress. The dress was listed at ₹600, and during the sale, the website offered a 30% discount on it. She had placed the order.</p> <p>When the dress arrived, it did not fit her properly. She chose to return it, the website charges a convenience fee of ₹20 for every return.</p> <p>What is the final refund amount she received after the deduction of the convenience fee?</p>
OPTION A	₹400
OPTION B	₹420
OPTION C	₹440
OPTION D	₹550
CORRECT OPTION	Option A

TEACHER NAME: Pradeep Kumar Tiwari	SCHOOL NAME: PM SHRI K V Pt Deen Dyal Upadhyay Nagar
GRADE:8	CHAPTER NAME: Fractions in Disguise

CONCEPT: Growth and Compounding	GENERAL MATHEMATICAL COMPETENCY: C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY: C-1.6 Explores and applies fractions (both as ratios and in decimal form) in daily life situations.	
LEARNING INDICATOR: Applies the concept of compounding to solve problems in real life context	

QUESTION 4	While doing research, Anshul noticed that the population growth of the city XFJ grew 10% in the first year and 5% in the second and third year. The initial population of the city was 100000. What will be the population after the third year?
OPTION A	121275
OPTION B	120000
OPTION C	247500
OPTION D	111000
CORRECT OPTION	OPTION A

TEACHER NAME: AMIT KUMAR	SCHOOL NAME: PM SHRI KV NO.2 GAYA
GRADE:8	CHAPTER NAME: Fractions in Disguise
CONCEPT: Fractions, Decimals and Percentages	GENERAL COMPETENCY FOR MATHEMATICS:C2 - Employing mathematical concepts, facts, procedures and reasoning

NCF COMPETENCY:C-1.6 Explores and applies fractions (both as ratios and in decimal form) in daily life situations.

LEARNING INDICATOR: Applies the concept of percentage to solve real life problems

QUESTION 5	A student is taking part in a 10 km cyclothon, riding at a constant speed of 16 km/h. By 10:20 a.m., he had completed 60% of the total distance. What time will he finish the race?
OPTION A	10:35 am
OPTION B	10:40 am
OPTION C	10:42:30 am
OPTION D	10:57:30 am
CORRECT OPTION	OPTION A

TEACHER NAME: AMIT KUMAR	SCHOOL NAME: PM SHRI KV NO.2 GAYA
GRADE:8	CHAPTER NAME: Fractions in Disguise
CONCEPT: Fractions, Decimals and Percentages	GENERAL COMPETENCY FOR MATHEMATICS:C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY:C-1.6 Explores and applies fractions (both as ratios and in decimal form) in daily life situations.	

LEARNING INDICATOR: Applies the concept of percentage to solve real life problems

QUESTION 6	<p>A grocery shop owner has 500 items to sell on Sunday. Each item is priced at ₹100. To boost evening sales, he announces a discount on 200 items while selling the remaining 300 items at the original price. At the end of the day, his total sales amount to ₹40,000.</p> <p>What is the discount percentage on each discounted item?</p>
OPTION A	20%
OPTION B	25%
OPTION C	50%
OPTION D	75%
CORRECT OPTION	OPTION C

TEACHER NAME: Dr. Mridula Chaturvedi	SCHOOL NAME: PM SHRI KENDRIYA VIDYALAYA RAJNANDGAON
GRADE:8	CHAPTER NAME: Fractions in Disguise
CONCEPT: Percentage change and Taxes	GENERAL MATHEMATICAL COMPETENCY: C3- Interpreting, applying and evaluating mathematical outcomes
NCF COMPETENCY: C-1.6 Explores and applies fractions (both as ratios and in decimal form) in daily life situations.	

LEARNING INDICATOR: Analyse the variation in price of a commodity/service with change in discount percentage

QUESTION 7	<p>A jacket is sold for ₹2,000.</p> <ul style="list-style-type: none"> At the brand outlet sale, the jacket has a 20% discount. At the brand factory sale, the jacket has a 30% discount. <p>How much less money does a customer pay if they buy the jacket at the factory sale compared to the outlet sale?</p>
OPTION A	₹100
OPTION B	₹200
OPTION C	₹300
OPTION D	₹400
CORRECT OPTION	OPTION B

TEACHER NAME: JYOTI AGARWAL	SCHOOL NAME: PM SHRI K V MALLESWARAM SHIFT-1 BENGALURU
GRADE:8	CHAPTER NAME: Fractions in Disguise
CONCEPT:Growth and Compounding	GENERAL COMPETENCY FOR MATHEMATICS:C3- Interpreting, applying and evaluating mathematical outcomes
NCF COMPETENCY:C-1.6 Explores and applies fractions (both as ratios and in decimal form) in daily life situations.	

LEARNING INDICATOR: Analyse the variation in interests (with or without compounding) when principal, rate of interest and time duration changes

QUESTION 8	<p>Ananya's grandfather wants to give her a tab ₹30,000 on her birthday. He wants to choose a plan in which he has to pay the least amount of interest. He compares the following four repayment plans:</p> <p>Plans with ₹10,000 Down Payment(Interest charged on ₹20,000) Plan A: Simple Interest at 6% per annum for 3 years Plan B: Simple Interest at 4% per annum, for 4 years</p> <p>Plans with NO Down Payment(Interest charged on ₹30,000) Plan C: Simple interest at 3% per annum for 2 years. Plan D: Simple Interest at 2% for 4 years</p> <p>Which plan should the grandfather choose?</p>
OPTION A	Plan A
OPTION B	Plan B
OPTION C	Plan C
OPTION D	Plan D
CORRECT OPTION	OPTION C

TEACHER NAME: Dr. Mridula Chaturvedi	SCHOOL NAME: PM SHRI KENDRIYA VIDYALAYA RAJNANDGAON
GRADE:8	CHAPTER NAME: Fractions in Disguise
CONCEPT: Percentage change and Taxes	GENERAL MATHEMATICAL COMPETENCY: C3- Interpreting, applying and evaluating mathematical outcomes
NCF COMPETENCY: C-1.6 Explores and applies fractions (both as ratios and in decimal form) in daily life situations.	
LEARNING INDICATOR: Analyse the variation in price of a commodity/service with change in discount percentage	

QUESTION 9	A shoe store has a 'Buy More, Save More' offer. 1 pair of shoes has a 10% discount, but 2 pairs have a 25% discount. The cost of 1 pair is ₹100. How much more does a customer pay for 2 pairs compared to just buying 1 pair?
OPTION A	₹ 150
OPTION B	₹ 90
OPTION C	₹ 60
OPTION D	₹ 50
CORRECT OPTION	OPTION C

TEACHER NAME: ALOK ANAND	SCHOOL NAME: PM SHRI KV NMR JNU
GRADE:8	CHAPTER NAME: The Baudhayana-Pythagoras Theorem
CONCEPT:Baudhāyana's-Pythagoras Theorem	GENERAL COMPETENCY FOR MATHEMATICS: C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY: C-4.2 Learns the Baudhayana-Pythagoras theorem on the lengths of the sides of a right-angled triangle, and discovers a geometric proof using areas of squares erected on the sides of the triangle, and other related geometric constructions from the Sulba-Sutras	
LEARNING INDICATOR: Applies the property of the hypotenuse of an isosceles right-angled triangle to solve problems	

QUESTION 10	A school has a square herbal garden with each side measuring 10 m. To make walking easier, the gardener plans to build a straight stone path joining two opposite corners of the garden as shown below. What will be the length of the stone path?
OPTION A	$2\sqrt{5}$ m
OPTION B	$4\sqrt{5}$ m
OPTION C	$10\sqrt{2}$ m
OPTION D	$20\sqrt{2}$ m
CORRECT OPTION	OPTION C

TEACHER NAME: NARENDRA KUMAR MEENA	SCHOOL NAME: PM SHRI KV AFS NALIYA M SHRI KV AFS Naliya
GRADE:8	CHAPTER NAME: The Baudhayana-Pythagoras Theorem
CONCEPT: Baudhāyana - Pythagoras triples	GENERAL MATHEMATICAL COMPETENCY: C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY: C-4.2 Learns the Baudhayana-Pythagoras theorem on the lengths of the sides of a right-angled triangle, and discovers a geometric proof using areas of squares erected on the sides of the triangle, and other related geometric constructions from the Sulba-Sutras	
LEARNING INDICATOR: Uses Baudhāyana's triples to solve problems involving right-angled triangles.	

QUESTION 11	A multi-storey school building plans to buy an emergency retractable ladder for fire drills. For the safety of the students, the base of the ladder should be kept 6 metres away from the wall, and it must reach a window 8 metres above the ground. What should be the length of the ladder?
OPTION A	$2\sqrt{7}$ m
OPTION B	$7\sqrt{2}$ m
OPTION C	10 m
OPTION D	100 m
CORRECT OPTION	OPTION C

TEACHER NAME: Y V L N S SARMA	SCHOOL NAME: P M SHRI KV AFS BEGUMPET HYDERABAD
GRADE:8	CHAPTER NAME: The Baudhayana-Pythagoras Theorem
CONCEPT:Baudhāyana's-Pythagoras Theorem	GENERAL COMPETENCY FOR MATHEMATICS: C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY: C-4.2 Learns the Baudhayana-Pythagoras theorem on the lengths of the sides of a right-angled triangle, and discovers a geometric proof using areas of squares erected on the sides of the triangle, and other related geometric constructions from the Sulba-Sutras	
LEARNING INDICATOR: Applies the property of the hypotenuse of an isosceles right-angled triangle to solve problems	

QUESTION 12	<p>The length of the side of the playing area of a carrom board shown below is 74 cm.</p>  <p>A player strikes the striker from the bottom-left corner of the board to the top-right corner pocket.</p> <p>What is the distance covered by the striker across the board?</p>
OPTION A	74 cm

OPTION B	$74\sqrt{2}$ cm
OPTION C	148 cm
OPTION D	$148\sqrt{2}$ cm
CORRECT OPTION	Option B

TEACHER NAME: PRADIP INGLE	SCHOOL NAME:PM SHRI KENDRIYA VIDYALAYA AMBARNATH SHIFT-1
GRADE:8	CHAPTER NAME:The Baudhayana-Pythagoras Theorem
CONCEPT:Baudhāyana's- Pythagoras Theorem	GENERAL MATHEMATICAL COMPETENCY:C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY:C-4.2 Learns the Baudhayana-Pythagoras theorem on the lengths of the sides of a right-angled triangle, and discovers a geometric proof using areas of squares erected on the sides of the triangle, and other related geometric constructions from the Sulba-Sutras	
LEARNING INDICATOR: Applies Baudhāyana's Theorem to solve problems involving right-angled triangles.	

QUESTION 13

After heavy rain and a storm, a tree gets partially broken. Workers from the Municipal Corporation arrive to remove the broken part. To reach it, they place a ladder against the tree as shown in the figure below.

What is the length of the ladder used by the worker?

OPTION A

12 feet

OPTION B

18 feet

OPTION C

20 feet

OPTION D

28 feet

CORRECT OPTION	OPTION C
----------------	----------

ASSESSMENT WRITER: TEAM_SAS

GRADE: 8	CHAPTER NAME: The Baudhayana-Pythagoras Theorem
----------	---

CONCEPT: Baudhāyana's- Pythagoras Theorem	CBSE MATHEMATICAL COMPETENCY: C2 - Employing mathematical concepts, facts, procedures and reasoning
---	---

NCF COMPETENCY: C-4.2 Learns the Baudhayana-Pythagoras theorem on the lengths of the sides of a right-angled triangle, and discovers a geometric proof using areas of squares erected on the sides of the triangle, and other related geometric constructions from the Sulba-Sutras

LEARNING INDICATOR: Applies Baudhāyana's Theorem to solve problems involving right-angled triangles.
--

QUESTION 14	<p>A tourist camp organiser uses the tent shown in the figure.</p>  <p>The diagram shows a conical tent. The slant height is labeled as 5 m. The height from the ground to the top of the tent is labeled as 1.5 m. The radius of the circular base is labeled as 3 m.</p>
-------------	--

	The supporting stick placed vertically inside the tent is damaged and needs to be replaced. Which length of stick should be chosen to hold the tent firmly?
OPTION A	4 m
OPTION B	5.5 m
OPTION C	6.5 m
OPTION D	7.5 m
CORRECT OPTION	Option B

TEACHER NAME: AMIT GARG	SCHOOL NAME: PM SHRI KV NO.2 JLA BAREILLY
GRADE:8	CHAPTER NAME:The Baudhayana-Pythagoras Theorem
CONCEPT:Baudhāyana's-Pythagoras Theorem	GENERAL MATHEMATICAL COMPETENCY:C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY:C-4.2 Learns the Baudhayana-Pythagoras theorem on the lengths of the sides of a right-angled triangle, and discovers a geometric proof using areas of squares erected on the sides of the triangle, and other related geometric constructions from the Sulba-Sutras	
LEARNING INDICATOR: Applies Baudhāyana's Theorem to solve problems involving right-angled triangles.	

QUESTION 15	<p>A firefighter has a ladder of length 10 m to rescue a cat stuck at a window of a building. The window is at a height of 6 m from the ground.</p> <p>What distance from the wall should the firefighter place the foot of the ladder so that it reaches the window safely?</p>
OPTION A	$2\sqrt{7}$ m
OPTION B	$4\sqrt{2}$ m
OPTION C	8 m
OPTION D	10 m
CORRECT OPTION	OPTION C

TEACHER NAME: Sumit Bhardwaj	SCHOOL NAME: PM SHRI KV NO. 2 PORT BLAIR
GRADE:8	CHAPTER NAME: Proportional Reasoning-2
CONCEPT:Inverse proportion	GENERAL COMPETENCY FOR MATHEMATICS:C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY: C-1.6 Explores and applies fractions (both as ratios and in decimal form) in daily life situations.	
LEARNING INDICATOR: Applies the concept of inverse proportionality to solve problem in real life context	

QUESTION 16	Pratham started practising mock tests for his Government job exam. He takes 2 minutes per question to solve 60 MCQs. But after practicing for many days, he increased the number of questions to 100. How does the time per question change for him ?
OPTION A	Decreased by 48 second
OPTION B	Increased by 48 second
OPTION C	Decreased by 0.8 second
OPTION D	Increased by 0.8 second
CORRECT OPTION	OPTION A

TEACHER NAME: ALOK ANAND	SCHOOL NAME: PM SHRI KV NMR JNU
GRADE:8	CHAPTER NAME: Exploring some geometric themes
CONCEPT:Fractals	GENERAL COMPETENCY FOR MATHEMATICS :C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY: C-4.4 Develops familiarity with the notion of fractal and identifies and appreciates the appearances of fractals in nature and art in India and around the world	
LEARNING INDICATOR: Finds the number of holes/area at nth step in sierpinski carpet/gasket	

<p>QUESTION 17</p>	<p>A temple floor designer uses triangular patterns. At every step, the middle triangle is removed to form a Sierpinski gasket as shown below.</p> <div style="text-align: center;"> </div> <p>How many triangular holes will be formed after 3 steps?</p>
<p>OPTION A</p>	<p>13</p>
<p>OPTION B</p>	<p>27</p>
<p>OPTION C</p>	<p>40</p>
<p>OPTION D</p>	<p>81</p>
<p>CORRECT OPTION</p>	<p>OPTION A</p>

TEACHER NAME: Dr. Mridula Chaturvedi	SCHOOL NAME: PM SHRI KENDRIYA VIDYALAYA RAJNANDGAON
GRADE:8	CHAPTER NAME: Exploring some geometric themes
CONCEPT: Visualising Solids	GENERAL MATHEMATICAL COMPETENCY: C1- Formulating situations mathematically
NCF COMPETENCY: C-3.3 Identifies attributes of three-dimensional shapes (cubes, parallelepipeds, cylinders, cones), works hands-on with material to construct these shapes, and also uses two-dimensional representations of three-dimensional objects to visualise and solve problems	
LEARNING INDICATOR: Identifies shapes from different viewpoints	

QUESTION 18

Amit builds a structure using blocks, as shown below.

What is the top view of this structure?

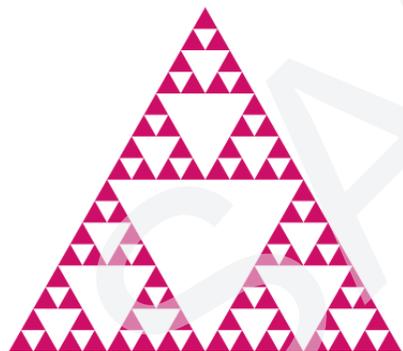

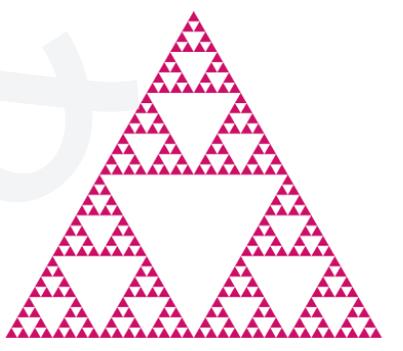

OPTION A

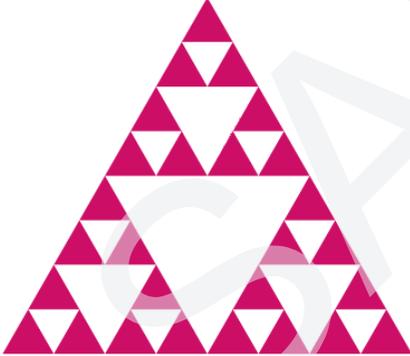

OPTION B	
OPTION C	
OPTION D	
CORRECT OPTION	OPTION B

TEACHER NAME: Sumit Bhardwaj	SCHOOL NAME: PM SHRI KV NO. 2 PORT BLAIR
GRADE:8	CHAPTER NAME:Exploring some geometric themes
CONCEPT:Fractals	GENERAL COMPETENCY FOR MATHEMATICS:C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY:C-4.4 Develops familiarity with the notion of fractal and identifies and appreciates the appearances of fractals in nature and art in India and around the world	
LEARNING INDICATOR: Represents the fractal at the nth step of its shape sequence.	

QUESTION 19	An interior designer wants to decorate a wall with Stage 5 of the Sierpinski triangle. Which of the following triangles will the designer use?
OPTION A	

OPTION B	
OPTION C	
OPTION D	

	
CORRECT OPTION	OPTION C

TEACHER NAME: ALOK ANAND	SCHOOL NAME: PM SHRI KV NMR JNU
GRADE:8	CHAPTER NAME: Tales by Dots and Lines
CONCEPT:Balancing mean and median	GENERAL COMPETENCY FOR MATHEMATICS :C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY:C-5.1 Collects, organises data, and applies measures of central tendencies such as average/mean, mode, and median.	
LEARNING INDICATOR: Calculates the value of new mean based on the changes in data of given data set	

QUESTION 20

Rohit tracks his daily walking steps using the Google Fit app to improve his fitness.

For 5 consecutive days, his step counts are shown below:

Day	STEPS
DAY 1	6000
DAY 2	6500
DAY 3	7000
DAY 4	7500
Day 5	8000

He found that mean of the 5 days is 7000 steps

On the 6th day , Rohit joins a marathon practice and walks 13,000 steps.

What is the new average (mean) number of steps for all 6 days?

OPTION A

5833

OPTION B

7000

OPTION C

8000

OPTION D	9600
CORRECT OPTION	OPTION C

TEACHER NAME: NARENDRA KUMAR MEENA	SCHOOL NAME: PM SHRI KV AFS NALIYA M SHRI KV AFS Naliya
GRADE:8	CHAPTER NAME: Tales by Dots and Lines
CONCEPT:Balancing mean and median	GENERAL COMPETENCY FOR MATHEMATICS: C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY:C-5.1 Collects, organises data, and applies measures of central tendencies such as average/mean, mode, and median.	
LEARNING INDICATOR: Finds the value of missing data point using given mean	

QUESTION 21	The school canteen manager records the number of sandwiches sold each day to help plan ingredients and reduce food waste. However, during a week, one day's data was missing due to a recording error as shown below:							
	Day of the Week	1st	2nd	3rd	4th	5th	6th	7th
	Sandwiches Sold	18	20	22	—	24	26	30

	After reviewing the weekly report, the manager found that the average number of sandwiches sold per day was 24. How many sandwiches are sold on the 4th day of week?
OPTION A	22
OPTION B	24
OPTION C	26
OPTION D	28
CORRECT OPTION	OPTION C

TEACHER NAME: ALOK ANAND	SCHOOL NAME: PM SHRI KV NMR JNU
GRADE:8	CHAPTER NAME: Tales by Dots and Lines
CONCEPT:Mean and Median with Frequencies	GENERAL COMPETENCY FOR MATHEMATICS:C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY:C-5.1 Collects, organises data, and applies measures of central tendencies such as average/mean, mode, and median.	
LEARNING INDICATOR: Finds the mean for data with frequency	

<p>QUESTION 22</p>	<p>During online classes, Mrs. Sharma records the number of students attending her Mathematics class each day for 10 days using the attendance feature of the app.</p> <table border="1" data-bbox="483 467 2161 962"> <thead> <tr> <th data-bbox="483 467 1317 568">No. of students present</th> <th data-bbox="1317 467 2161 568">Frequency(no. of days)</th> </tr> </thead> <tbody> <tr> <td data-bbox="483 568 1317 668">30</td> <td data-bbox="1317 568 2161 668">2</td> </tr> <tr> <td data-bbox="483 668 1317 769">35</td> <td data-bbox="1317 668 2161 769">4</td> </tr> <tr> <td data-bbox="483 769 1317 869">40</td> <td data-bbox="1317 769 2161 869">3</td> </tr> <tr> <td data-bbox="483 869 1317 962">40</td> <td data-bbox="1317 869 2161 962">1</td> </tr> </tbody> </table> <p>What is the mean number of students attending the online class per day?</p>	No. of students present	Frequency(no. of days)	30	2	35	4	40	3	40	1
No. of students present	Frequency(no. of days)										
30	2										
35	4										
40	3										
40	1										
OPTION A	36.25										
OPTION B	36										
OPTION C	37.5										
OPTION D	40										
CORRECT OPTION	OPTION B										

TEACHER NAME: Pradeep Kumar Tiwari	SCHOOL NAME: PM SHRI K V Pt Deen Dyal Upadhyay Nagar
GRADE:8	CHAPTER NAME: Tales by Dots and Lines
CONCEPT:Balancing mean and median	GENERAL COMPETENCY FOR MATHEMATICS :C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY:C-5.1 Collects, organises data, and applies measures of central tendencies such as average/mean, mode, and median.	
LEARNING INDICATOR: Calculates the value of new mean based on the changes in data of given data set	

QUESTION 23	The average daily water consumption of a hostel over 10 days is 2,500 litres. Due to a meter fault, one day's consumption was recorded as 1,800 litres instead of the actual 3,300 litres. By how many litres did the average consumption change?
OPTION A	Increase by 150 litres
OPTION B	Decrease by 150 litres
OPTION C	Increase by 1500 litres
OPTION D	Decrease by 1500 litres
CORRECT OPTION	OPTION A

TEACHER NAME: Y V L N S SARMA	SCHOOL NAME: PM SHRI KV AFS BEGUMPET HYDERABAD
GRADE:8	CHAPTER NAME: Tales by Dots and Lines
CONCEPT: Mean and Median with Frequencies	GENERAL COMPETENCY FOR MATHEMATICS: C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY: C-5.1 Collects, organises data, and applies measures of central tendencies such as average/mean, mode, and median.	
LEARNING INDICATOR: Finds the mean for data with frequency	

QUESTION 24	In a survey in a colony the number of plants in the kitchen garden of their homes is noted as follows.	
	Number of homes	Number of plants
	10	3
	9	4
	8	5
	7	6
	6	7
	5	8
	4	9

	1	10
	What is the mean number of plants in each home?	
OPTION A	6.25	
OPTION B	6.5	
OPTION C	5.52	
OPTION D	5.72	
CORRECT OPTION	OPTION C	

TEACHER NAME: PRADIP INGLE	SCHOOL NAME:PMSHRI KENDRIYA VIDYALAYA AMBARNATH SHIFT-1
GRADE:8	CHAPTER NAME: Tales by Dots and Lines
CONCEPT:Balancing mean and median	GENERAL COMPETENCY FOR MATHEMATICS: C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY:C-5.1 Collects, organises data, and applies measures of central tendencies such as average/mean, mode, and median.	
LEARNING INDICATOR: Finds the value of missing/incorrect data point using given mean	

QUESTION 25

For the selection of the Ranji Cricket Trophy matches, the selectors calculated the average (mean) score of Sidhant's last four matches. The runs scored by Sidhant are shown below:

Match	Run Scored
Match-1	48
Match-2	69
Match-3	82
Match-4	17
Total Score	216

As per Selectors calculation, the average was 54. Sidhant objected that his average score should be 63. He pointed out that one score was entered incorrectly, where the digits in the tens and ones places were interchanged.

Which of his entries is wrong?

OPTION A

17

OPTION B

48

OPTION C	69
OPTION D	82
CORRECT OPTION	OPTION B

TEACHER NAME: PRADIP INGLE	SCHOOL NAME: PMSHRI KENDRIYA VIDYALAYA AMBARNATH SHIFT-1
GRADE:8	CHAPTER NAME: Tales by Dots and Lines
CONCEPT: Mean and Median with Frequencies	GENERAL MATHEMATICAL COMPETENCY: C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY: C-5.1 Collects, organises data, and applies measures of central tendencies such as average/mean, mode, and median.	
LEARNING INDICATOR: Finds the median for data with frequency	

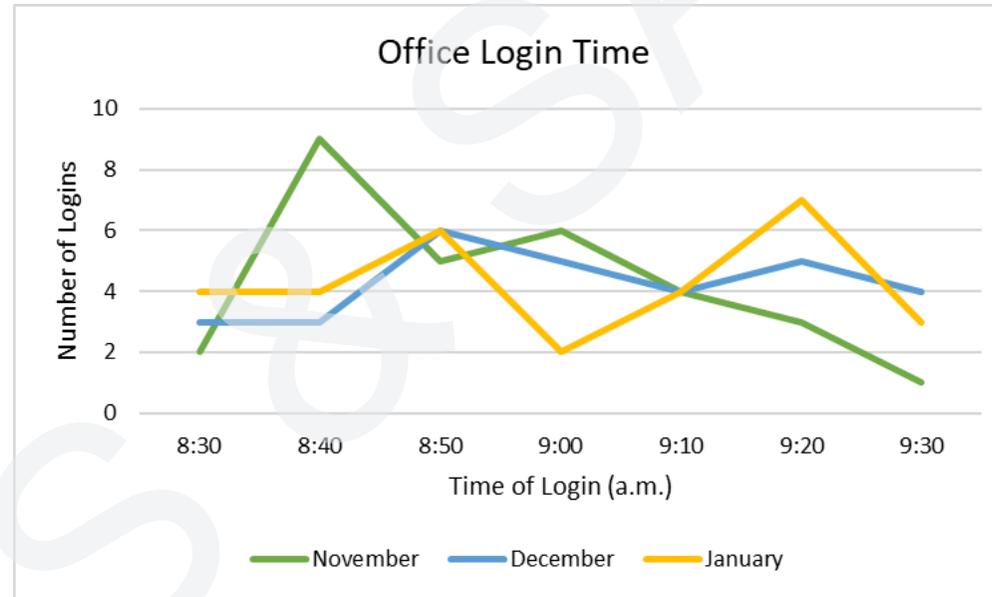

QUESTION 26	<p>During a school health check-up, students were divided into two different groups on two different days as shown below.</p> <p style="text-align: center;"> ANU AMIT SUMIT BINA AMIT SIDHANT SUJATA </p>
-------------	---

	GROUP- A	GROUP- B
	Amit was present on both days, so his weight appears in both groups.	
	The median weight of group A is 28 kg. What is the weight of sidhant if the median weight of group B is 35 kg?	
OPTION A	32 kg	
OPTION B	35 kg	
OPTION C	42 kg	
OPTION D	49 kg	
CORRECT OPTION	OPTION C	

ASSESSMENT WRITER: TEAM_SAS	
GRADE: 8	CHAPTER NAME: Tales by dots and lines
CONCEPT: Visualising and Interpreting Data	CBSE MATHEMATICAL COMPETENCY: C3- Interpreting, applying and evaluating mathematical outcomes
NCF COMPETENCY: C-5.2 Selects, creates, and uses appropriate graphical representations (e.g., pictographs, bar graphs, histograms, line graphs, and pie charts) of data to make interpretations	
LEARNING INDICATOR: Draws conclusion by interpreting the data given in line graphs	

QUESTION 27

A firm currently allows employee logins between 8:30 a.m. to 9:30 a.m.
The login dashboard shows the login details of 30 employees over the last three months, with time rounded to the nearest 10 minutes.

To better align login behaviour, the office plans to revise the morning login window to 30 minutes.
Which revised morning login timing range is the most preferred based on the given data?

OPTION A

8:30 a.m. to 9:00 a.m.

OPTION B

8:40 a.m. to 9:10 a.m.

OPTION C

8:50 a.m. to 9:20 a.m.

OPTION D	9:00 a.m. to 9:30 a.m.
CORRECT OPTION	Option B

TEACHER NAME: AMIT KUMAR	SCHOOL NAME: PM SHRI KV NO.2 GAYA
GRADE:8	CHAPTER NAME: Tales by Dots and Lines
CONCEPT: Mean and Median with Frequencies	GENERAL MATHEMATICAL COMPETENCY: C2 - Employing mathematical concepts, facts, procedures and reasoning
NCF COMPETENCY: C-5.1 Collects, organises data, and applies measures of central tendencies such as average/mean, mode, and median.	
LEARNING INDICATOR: Finds the median for data with frequency	

QUESTION 28	The time taken (in minutes) by 7 students to complete a 4 km marathon is: 12, 15, 10, 22, 18, 14, 13. What is the median time taken by the students?
OPTION A	12
OPTION B	13
OPTION C	14
OPTION D	15
CORRECT OPTION	OPTION C

TEACHER NAME: Dr. Mridula Chaturvedi	SCHOOL NAME: PM SHRI KENDRIYA VIDYALAYA RAJNANDGAON
GRADE:8	CHAPTER NAME: Tales by Dots and Lines
CONCEPT: Visualising and Interpreting Data	GENERAL MATHEMATICAL COMPETENCY: C1- Formulating situations mathematically
NCF COMPETENCY: C-5.2 Selects, creates, and uses appropriate graphical representations (e.g., pictographs, bar graphs, histograms, line graphs, and pie charts) of data to make interpretations	
LEARNING INDICATOR: Represents the data in line graph	

QUESTION 29	Two friends, Arun and Sana, tracked their Mathematics test scores (out of 50 marks) over five months to see who was improving faster. The data they collected is shown below:																
	<table border="1"> <thead> <tr> <th>Months</th> <th>Arun's Score</th> <th>Sana's Score</th> </tr> </thead> <tbody> <tr> <td>January</td> <td>30</td> <td>35</td> </tr> <tr> <td>February</td> <td>35</td> <td>32</td> </tr> <tr> <td>March</td> <td>38</td> <td>38</td> </tr> <tr> <td>April</td> <td>42</td> <td>45</td> </tr> </tbody> </table>	Months	Arun's Score	Sana's Score	January	30	35	February	35	32	March	38	38	April	42	45	
Months	Arun's Score	Sana's Score															
January	30	35															
February	35	32															
March	38	38															
April	42	45															

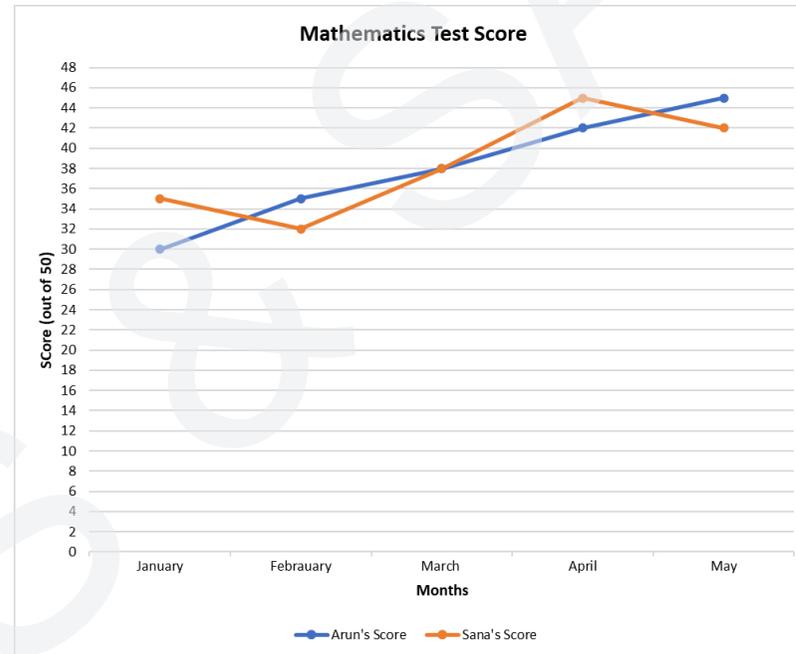

May

45

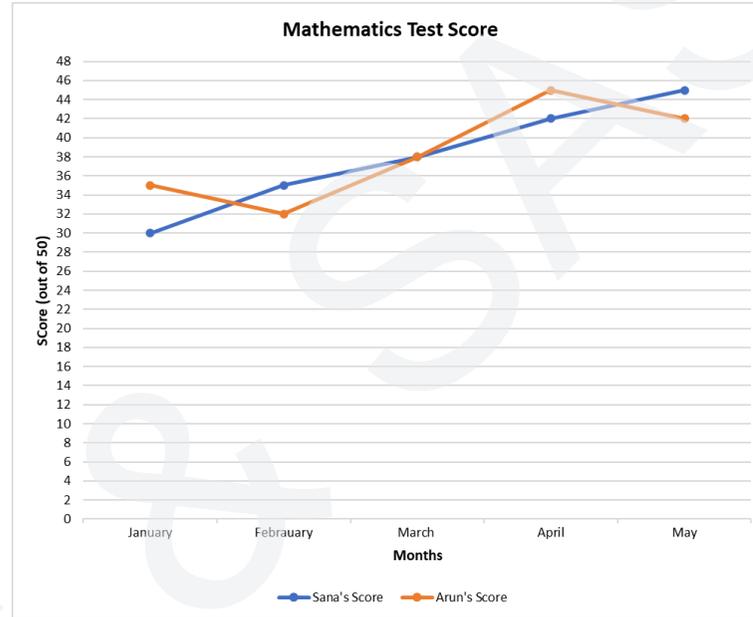

42

Which of the following is the correct line graph of the above situation?

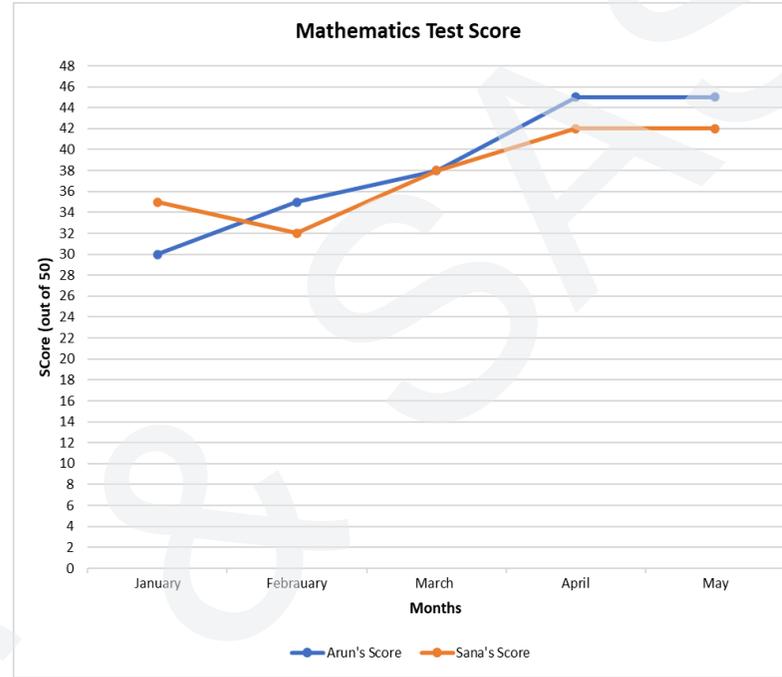

OPTION A

OPTION B

OPTION C

OPTION D	<table border="1"> <caption>Mathematics Test Score Data</caption> <thead> <tr> <th>Month</th> <th>Arun's Score</th> <th>Sana's Score</th> </tr> </thead> <tbody> <tr> <td>January</td> <td>30</td> <td>35</td> </tr> <tr> <td>February</td> <td>33</td> <td>35</td> </tr> <tr> <td>March</td> <td>38</td> <td>38</td> </tr> <tr> <td>April</td> <td>43</td> <td>45</td> </tr> <tr> <td>May</td> <td>45</td> <td>43</td> </tr> </tbody> </table>	Month	Arun's Score	Sana's Score	January	30	35	February	33	35	March	38	38	April	43	45	May	45	43
Month	Arun's Score	Sana's Score																	
January	30	35																	
February	33	35																	
March	38	38																	
April	43	45																	
May	45	43																	
CORRECT OPTION	OPTION A

LEARNING INDICATOR: Finds the median for data with frequency

QUESTION 30

Dr. Mehta manages the emergency room at a city hospital. To improve patient satisfaction, he analyzed waiting times (in minutes) for 50 patients on a busy Saturday as shown below:

Wait Time (minutes)	Number of Patients
10	8
15	12
20	15
25	10
30	5

What is the median waiting time that should be reported to the hospital board?

OPTION A

15 minutes

OPTION B

18 minutes

OPTION C	20 minutes
OPTION D	25 minutes
CORRECT OPTION	OPTION C

TEACHER NAME: NARENDRA KUMAR MEENA	SCHOOL NAME: PM SHRI KV AFS NALIYA M SHRI KV AFS Naliya
